One day takes place at Heritage \& the homework assigned would need to be completed during the week. Ex. for PE classes, the student would need to continue to practice during the week for that class to earn course credit. However, a half credit can be given for 2-2.5 hours a week and then a full credit for more time spent. Most of the academic classes would give enough homework to guarantee credit. Ultimately, the decision to assign credit is the parents'. Junior High classes could be counted for high school credit if the student takes the class in 9 th grade \& does the appropriate amount of outside work. A Jr. High class might need to be combined with an additional class for high school credit. EX.--Jr. High Lit and Jr. High writing. |  |  |  |  |  | Economics \& Personal Finance 9th-Adult Holstrom |

**Please note--as a homeschooling parent you are ultimately responsible for your student's grades and transcripts. You assign the credits earned \& you hand out the dipolma. The highschool teachers do give suggested grades, but the parents make the final decision. HHSW has a graduation program, but admission is not contingent upon any conditions of HHSW. This assessment is made by the parents. HHSW and all individual teachers are not responsible for your high school transcript and credits assigned. Some classes have honors options, so check with individual
